Subject: EOCCG Update 25: Planned Truck Demonstration (and COVID-19)

Good evening,

This will likely be my last update to EOCCG on the Planned Truck Demonstration.

I am pleased to report that the EOC has de-escalated to "Monitoring"/Situational Awareness in line with the Mayor's termination of the City's State of Emergency this afternoon. A very small EOC will remain in place over the next few days, to ensure that Ottawa Police Service receive any residual City support they need.

EOC Truck Demonstration Status

The EOC's focus is entirely on clean up right now. As part of this work, Public Works Department (PWD) and Infrastructure and Water Services Department (IWSD) are working together to conduct safety inspections – particularly for those downtown streets where heavy vehicles had been parked during the protest and which had been used as encampments. The inspections include above ground and below ground infrastructure (buildings, streets, sidewalks, street furniture, bus shelters etc.), as well as catch basins, manholes, valves and hydrants, to identify any signs of damage.

All litter and debris left by the protesters will be cleared by tomorrow. Roads Crews are also continuing to perform snow removal and salting operations. The last step, as part of the City's efforts to restore the downtown core, is to remove the hundreds of barriers that were used to block off streets. This is a big operation that requires the use of heavy equipment and will take several days to complete. OC Transpo is working closely with the EOC to quickly restore bus services as streets are re-opened.

COVID-19 EOC Status

I am pleased to report that the City's second EOC structure, which had been activated since December 13, 2021, has also de-escalated to "Monitoring" effective today. City staff are working with Ottawa Public Health (OPH) to transition the COVID-19 EOC vaccine operations to the OPH Immunization Program. In her special statement issued on February 14, Dr. Etches noted that monitoring indicators are showing that the level of Omicron is declining in Ottawa, with our strongest protection remaining vaccination. OPH will continue its critical outreach and community-based work, as part of its Immunization Program, to ensure that Ottawa residents have equitable access to COVID-19 vaccines.

It has been a true pleasure working with Vera and her team.

A notice will be sent to EOCCG once both of the City's EOCs have fully de-mobilized (and the City has returned to "Normal Operations" for both situations).

Thank you for your support over these challenging last few months! And thanks again to the Ottawa Police Service, and its policing partners, for doing an exceptional job at restoring peace and safety to the City's downtown core.
